

SLIDE 1 OF 10

1. Your Startup

What does your startup do? Who is it for? What are you building, and why is it relevant?

CORE CONCEPT

What is StackDeal?

StackDeal (stackdeal.in) is India's curated B2B SaaS deal marketplace.

We connect high-utility software tools with digital marketing agencies, growth teams, and solopreneurs through exclusive 5-Year Access Passes.

Instead of paying expensive recurring monthly dollar bills, buyers pay once in INR via UPI/cards and secure 5 full years of verified software access with official 18% GST tax invoices.

RELEVANCE & TARGET USER

Who is it for and why now?

- Target Buyers: 35,000+ Indian digital marketing agencies, 1.5 Crore+ freelancers, and SMB founders who suffer from SaaS subscription fatigue.

- Target Sellers: Early-stage bootstrapped SaaS founders who have built great technical products but lack marketing distribution.

- Why it is Relevant: India is experiencing a massive digitization boom, but global platforms like AppSumo ignore Indian payment realities (no UPI, no GST invoices, and 70-80% cuts from founders).

SLIDE 2 OF 10

2. The Problem

What real problem, need, or market gap are you solving? Who faces this problem, and why does it matter?

BUYER PROBLEM (AGENCIES)

Severe Monthly Subscription Fatigue

- **Crushing Monthly Costs:** An average boutique digital agency uses 6 to 8 software tools (WhatsApp bots, SEO trackers, lead scrapers, CRM), paying \$30 to \$99 every month on credit cards, even during slow business cycles.
- **Zero Indian GST Credit:** Foreign SaaS billing provides zero Indian GST tax compliance, causing a direct 18% tax loss for Indian agencies.
- **Currency Markup Fees:** Indian debit/credit cards incur 3.5% foreign transaction markup fees and conversion risks on USD payments.

SELLER PROBLEM (FOUNDERS)

The Distribution & Monetization Wall

- **Zero Distribution:** Bootstrapped software developers spend months building solid products but have zero marketing budget to acquire their first 100 paying customers.
- **Predatory Legacy Platforms:** Global deal sites (like AppSumo) charge 70% to 80% commissions and lock founder payouts for over 60 days.
- **Unsustainable Lifetime Liabilities:** Traditional "Lifetime Deals" force founders into infinite server costs without clear boundaries.

SLIDE 3 OF 10

3. Your Solution

How does your product or service solve the problem? What value does it provide to customers?

FOR AGENCY BUYERS

Peace of Mind & Local Tax

- 5-Year Cost Predictability: Pay once in INR, use for 5 full years with zero recurring monthly bills.
- 100% Indian-Native Checkout: Instant UPI (PhonePe, GPay, Paytm), Cards, and Net Banking.
- Automated 18% GST Invoices: Instant B2B tax invoices with agency GSTIN for CA input tax write-offs.
- 60-Day Guarantee: Risk-free unconditional trial.

FOR SAAS FOUNDERS

Profitable Distribution

- 70% Revenue Share: Founders keep 70% of every sale with bi-weekly direct bank transfers.
- 100+ Paying Power Users: Immediate cohort of active agency customers who provide reviews and word-of-mouth.
- 1-Click AI Listing Copilot: Automated deal copy, graphics, and landing page creation in minutes.
- Zero upfront listing fees.

THE 5-YEAR INNOVATION

Sustainable Economics

- Clear Unit Economics: 5-Year Passes eliminate the infinite server burden of traditional lifetime deals while giving buyers multi-year cost certainty.
- Natural Upsells: Growing agencies naturally expand to higher recurring tiers as their client workload increases.
- Win-Win Model: Founders get upfront growth capital, buyers save 85-92% on tools.

6. Business Model

How does your business create, deliver, and capture value? (Commercial mechanics)

CORE REVENUE ENGINE

30% Marketplace Commission

- Transparent Take-Rate: StackDeal retains 30% on every 5-Year Pass transaction; 70% is transferred directly to the SaaS founder.

- Real Unit Economics Example:
 - Retail Deal Price: Rs 2,499 (Buyer pays once for 5 years)
 - Founder Payout: Rs 1,749 (70% direct transfer)
 - StackDeal Gross Margin: Rs 750 (30% take-rate)

- Zero Inventory Holding Costs: 100% digital software fulfillment via automated license keys with pure software gross margins.

VALUE DELIVERY FLOW

How Value is Created & Delivered

1. Curation & QA: We test and verify early-stage B2B software for uptime, utility, and agency relevance.

2. Local Distribution: We package the deal with Indian payment options (UPI/Cards) and automated GST tax invoicing.

3. Instant Fulfillment: Buyer receives instant software license access, while the vendor acquires an active paying customer with zero marketing spend.

4. Bi-Weekly Settlements: Automated payouts deposited directly to the vendor's verified bank account.

SLIDE 7 OF 10

7. Revenue Strategy

How does your startup make money today — or plan to make money in the future? (Revenue streams)

STREAM 1 (ACTIVE TODAY)

Deal Commission Take-Rate

- 30% take-rate on every 5-Year Pass sold through the marketplace.
- Zero cost of goods sold (COGS); revenue scales directly with transaction volume.
- Target: 500 sales/month @ Rs 2,500 avg ticket = Rs 3.75 Lakhs net monthly revenue.

STREAM 2 (Q4 ROADMAP)

StackDeal Plus Membership

- Annual VIP Subscription: Rs 2,999/year for high-frequency agency buyers.
- Member Benefits: Extra 10% discount on all deals, 24-hour early access VIP drops, and priority support.
- 100% pure recurring annual SaaS revenue for StackDeal.

STREAM 3 (EXPANSION)

Sponsored Vendor Spotlights

- Featured Homepage Banners: Established SaaS vendors pay Rs 25,000 to Rs 50,000 per launch campaign for premium hero slider placement.
- Dedicated Outbound Blasts: Sponsored newsletter broadcasts to our verified Indian agency database.

SLIDE 8 OF 10

8. Competitive Advantage

Who are your competitors or alternatives? What makes your startup different, and why would customers choose you?

COMPETITOR LANDSCAPE

Global & Legacy Alternatives

- AppSumo (US Market Leader - \$80M+ GMV):
 - Requires USD credit cards with expensive foreign exchange markups.
 - Zero Indian GST tax invoice compliance.
 - Takes 70% to 80% cuts from founders and holds payouts for 60+ days.
- Monthly SaaS Subscriptions (Direct Tools):
 - High recurring churn and subscription fatigue during slow client months.
- PitchGround / DealMirror:
 - Outdated UX, limited Indian payment methods, and inconsistent support.

OUR UNFAIR ADVANTAGES

Why StackDeal Wins in India

1. Indian-Native Checkout & Tax: Instant UPI (PhonePe/GPay) + automated 18% GST B2B tax invoices with GSTIN.
2. Founder-Friendly Economics: Fair 70% payout with bi-weekly settlements.
3. Sustainable 5-Year Pass Model: Eliminates infinite server liability while giving agencies multi-year cost certainty.
4. Built-in AI Matchmaker: Proprietary Groq-powered AI copilot recommending customized software stacks based on agency niche.

SLIDE 9 OF 10

9. Your Team

Who is behind the startup? Introduce the founders, their roles, and the skills or experience they bring.

FOUNDER & FULL-STACK BUILDER

Ujjawal Tiwari

- Role: Founder & Full-Stack Product Architect.
- Technical Execution: Engineered the entire StackDeal platform architecture from scratch using Next.js 16, TypeScript, MongoDB, Razorpay API, and Groq AI.
- Speed & Problem Solving: Solved complex technical SEO crawl indexing challenges, launched on Product Hunt, and deployed production-grade infrastructure with zero external burn.
- Vision & Commitment: Dedicated to empowering Indian bootstrapped developers and solving software distribution for digital agencies.

EXECUTION PHILOSOPHY

Lean, Fast & Capital Efficient

- Hyper-Lean Operations: Zero bloated corporate overheads; every rupee is deployed directly into product performance and customer acquisition.
- High Velocity Shipping: Daily shipping cadence driven by live user feedback, technical monitoring, and fast feature deployment.
- Community-First Growth: Leveraging Product Hunt, LinkedIn founder networks, and direct agency partnerships for organic distribution.
